**4 May 2018**
Founding of SOSC

# INTRODUCTION

Devhost, the annual flagship event organized by the Sahyadri Open Source Community, is set to be an exhilarating convergence of innovation and expertise. Hosted at the Sahyadri College of Engineering and Management, Adyar, Mangalore, this 7th edition promises an extensive lineup of activities designed to upskill and inspire.

Attendees will have the opportunity to engage in dev talks, hands-on workshops, and masterclasses spanning domains like Web3 and APIs, led by top industry experts. Panel discussions featuring notable speakers from Mangalore will explore the burgeoning opportunities in the city, while experts will discuss the latest trends in technology and strategies for staying relevant in a rapidly evolving field.

A highlight of Devhost is the 20+hour hackathon, where participants will tackle real-world industry problem statements, vying for the top spot through innovative solutions. This event offers an unparalleled chance to network with over 25+ industry experts, learn about current IT industry trends, and understand how Mangalore is emerging as a significant IT hub.

# ABOUT SOSC

The Sahyadri Open Source Community (SOSC) is a dynamic group dedicated to integrating students into the open-source ecosystem through training and skill development. SOSC organizes workshops and training sessions with partners like Mozilla Campus Clubs and GitHub Campus Experts to foster a collaborative learning environment. With over 100 members, SOSC offers ample opportunities for engagement, innovation, and event hosting.

Our objective is to foster a collaborative environment where technology enthusiasts can come together to share knowledge, learn new skills, and stay updated with the latest trends.

Our goal is to create an inclusive space where individuals from diverse backgrounds and interests can collaborate, innovate, and grow together.

We achieve these by hosting several key events, including a UI/UX workshop an induction program, and a Git and GitHub workshop. Notable events included EnvisionX on Computer Vision, the Hacknight virtual hackathon, and Codeblaze 2023, a 20-hour hackathon with over 400 participants. Other highlights were BlindBytes, HackHarbor, and DevHost 2023, a major two-day tech gathering.

# OUR PAST DEVHOST

DevHost 2024 was a landmark event, engaging over 1200 participants from 15+ colleges in cutting-edge sessions and competitions. Industry leaders, including Suyog Shetty (CEO, Niveus Solutions) and Johnson Tellis (CEO, Sahyadri College), delivered inspiring talks, while experts from TCS Europe and NIT Karnataka led technical sessions. The event featured hands-on workshops on Web3, DevOps, and AI, culminating in a 20-hour hackathon. Panel discussions with professionals from Microsoft, Amazon, Google, and Novigo Solutions provided invaluable insights into success in top IT companies. The competitive programming contest by Sahyadri Open Source Community further validated participants' technical skills, fostering innovation and collaboration.

# THIS YEAR AT DEVHOST

Looking ahead to our DevHost – Expertise Redefined, Experience Reimagined, In November 2024, the event promises to build on the successes of our past DevHost by offering more diverse sessions, larger hackathon challenges, and increased industry partnerships. Plans are underway to include cutting-edge topics and attract a broader international audience, further solidifying Sahyadri College of Engineering and Management's reputation as a hub for innovation and learning.
